DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: in claim 2, line 2, please delete “;” after markers and insert __ . __

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: as to independent claim 1, the closest prior art of Baur alone or in combination with other prior art fails to teach or fairly suggest the invention as claimed in independent claim 1. In particular the key distinction between the closest prior art and the claimed invention is that the closest prior art does not rely upon computing measurements within images and using said measurements to make comparisons between animals, or the same animal in different points in time, using said measurements to compute a score which specifies how the particular animal conforms to some ideal, combining the scores with the comparisons set in order to use the score to rank the animals in percentile fashion, in combination with other elements of independent claim 1.

Accordingly, claims 1-4 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2623

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
